EDUCATION

B.E.S.T Innovation University

Andhra Pradesh

Bachelor's Degree in COMPUTER SCIENCE ENGINEERING

Dec 2021- Jun 2025

CGPA:9.0

Project

- Virtual Assistant (NOVA):** Developed a voice-interactive virtual assistant using HTML, CSS, and JavaScript, featuring speech recognition and response, with plans for customizable voices and motion interactions.
- Hospital Website:** Created a comprehensive hospital website with functionalities like online appointment booking, doctor profiles, and patient information management using HTML, CSS, and JavaScript.
- Horoscope App using AWS and Postman API:** Built a horoscope app that fetches daily predictions via API requests using AWS services, enhancing user engagement through personalized content.
- Data Integrity System using Snowflake on AWS:** Implemented a system to detect missing or corrupted data with Snowflake, sending automated alerts via AWS services for prompt issue resolution.

Achievements, Awards and Certificates

- Certificate of Participation in the RBI90 Quiz Competition.
